

## COMESA Media Awards 2022

The Common Market for Eastern and Southern Africa (COMESA) announces the call for entries for the 2020 COMESA Media Awards. The Award scheme is conducted every year to recognize and reward journalists who have contributed to regional integration by publishing and producing broadcast stories on the subject.

### Objective of the Awards

The objective of the Awards is to promote reporting of COMESA regional integration projects hence raising public awareness, understanding and participation and ownership. Relevant topics for entry include: development projects involving more than one COMESA Member State or a national project which have a regional dimension. Such projects cover trade, infrastructure (energy, transport, ICT), investments, gender etc. If the article/program is not about a COMESA programme, at least it should demonstrate the author/producer's understanding of COMESA's programmes.

Information on COMESA programmes can be obtained from:
