The Ministry of Health and Wellness has received the latest results for 78 successfully sequenced COVID-19 positive samples, registered between the 17th November and 19th December 2021. The sequencing was carried out by the Central Health Laboratory.

The 78 positive samples included: 49 samples originating from the local community and 29 from incoming passengers.

The sequencing results are as follows:

- **Delta Variant:** 57 cases (49 local samples and 8 incoming passengers)
- **Omicron Variant:** 21 cases (all incoming passengers)
